

I am a regular listener of K-LOVE on FM radio, and have heard that this station could be displaced by an LPFM broadcaster providing other programming. The music and broadcasting from K-LOVE is such a welcome alternative to other FM stations--you must not realize the positive effects it has on people across the world. And this world clearly needs some positive direction in the way of morals, principles and values. Please do not let K-LOVE be taken off the air. It is a great station with fun, upbeat and positive music, and inspirational messages that anyone tuning in deserves to hear. Please allow that message to stay strong on the airwaves--many people depend on it to keep them going.
